Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments:

Attorney for Applicant, Maurice Pirio discussed the prior art by Haartsen (US 5,699,367), as applied to the claimed invention, with respect to the proposed limitation of detecting at a switch an error during the transmission of the transaction response, terminating the transmission and transmitting an error message to the initiator communications device from the switch that detected the error.

The Examiner responded that the claimed invention does not distinguish over the prior art. Mr. Pirio indicated that he would follow up with an RCE after consulting with the Applicant.
